- Dial Safe Pro is an existing app that currently does a good job of teaching when, how, and what to say when calling 9-1-1
 - See what it will take/cost to get this app available to android devices
 - See if the developer will be willing to change the color scheme and theme to expand to a wider audience
- Before any funds are spent, ensure that the agencies that send in \$2,524.67 are in agreeance of how PETs see fit to move forward with their funds and be prepared to give funds back if they do not agree.
